

Molytech Products Private Limited

Multipurpose Grease – MT-1018 SVP

Molytech Products Private Limited offers **MT-1018 SVP**, a premium **silicone-based high-performance grease** specially formulated for applications requiring extreme temperature stability, safety for rubber and elastomers, and compatibility with food-grade requirements. Made with high-viscosity **silicone oil** and **inorganic thickener**, this grease delivers outstanding performance in both **hot and cold water environments**, while remaining **non-toxic** and safe for use in food industry valves and equipment.

Applications:

Ideal for valves, food processing machinery, rubber seals, elastomer components, and equipment exposed to hot or cold water in industrial and food-grade environments.

Features & Benefits:

- Safe for rubber and elastomers, preventing material degradation
- Neutral and non-toxic for food-grade applications
- Resistant to hot and cold water for versatile use
- Excellent temperature stability from -40°C to 250°C
- Provides long-lasting lubrication and sealing properties

Choose **MT-1018 SVP High Performance Grease** from **Molytech Products Private Limited** for reliable, food-safe, and temperature-resistant lubrication in critical industrial and food processing applications.
