Multiuse Spray – MT-1020

Molytech Products Private Limited presents **MT-1020 Multiuse Spray**, a versatile mineral oil-based maintenance aerosol designed to solve multiple industrial and automotive maintenance challenges. With excellent cleaning, lubrication, and rust protection properties, it acts as an all-in-one solution for reliable equipment upkeep.

Applications:

Ideal for cleaning and protecting mechanical parts, loosening rusted or seized fasteners, displacing moisture from electrical systems, and providing light lubrication. Suitable for industrial machinery, automotive components, tools, and general maintenance use.

Features & Benefits:

- Cleans and removes dirt, grease, and contaminants
- Loosens rusted bolts, nuts, and seized components
- Prevents rust and corrosion on exposed surfaces
- Displaces moisture from metal and electrical parts
- Acts as a multiuse problem-solver spray for everyday maintenance
- Improves reliability and extends equipment life

Choose **MT-1020 Multiuse Spray** from Molytech Products Private Limited for a dependable, all-in-one maintenance solution that cleans, protects, and restores performance.
