Electrical Online Cleaner – MT-1026

Molytech Products Private Limited presents **MT-1026 Electrical Online Cleaner**, a fast-evaporating, solvent-based aerosol spray designed for safe and effective cleaning of electrical and electronic components. Engineered for online use, this cleaner provides superior degreasing and moisture displacement without leaving residues, ensuring enhanced equipment reliability and safety.

Applications:

Ideal for electrical panels, motors, generators, switchgears, circuit breakers, relays, and electrical contact points up to 440V. Suitable for preventive and corrective maintenance in industrial, automotive, and power sectors.

Features & Benefits:

- Safe for online cleaning of live electrical equipment up to 440V
- Fast-evaporating, non-conductive formulation ensures quick cleaning
- Removes oil, dust, dirt, carbon deposits, and light greases effectively
- Environment-safe and residue-free performance
- Prevents moisture-related failures and enhances electrical reliability
- Convenient aerosol spray application for ease of use

Choose **MT-1026 Electrical Online Cleaner** from Molytech Products Private Limited for safe, efficient, and reliable maintenance of electrical and electronic systems.
