Cleaner & Degreaser – MT-1028

Molytech Products Private Limited presents **MT-1028 Cleaner & Degreaser**, a fast-evaporating, solvent-based aerosol formulated for quick and effective cleaning of mechanical components. With ultra-low viscosity and residue-free performance, this cleaner ensures maximum efficiency in removing oil, grease, and dirt from precision parts, extending equipment life and reducing downtime.

Applications:

Specially designed for cleaning mechanical parts such as bearings, slides, gears, chains, and precision components in industrial, automotive, and maintenance operations.

Features & Benefits:

- Fast-evaporating formula for efficient cleaning
- Residue-free performance to avoid contamination
- Effectively removes oil, grease, dirt, and carbon deposits
- Enhances performance and reliability of mechanical parts
- Easy-to-use aerosol spray for quick maintenance
- Suitable for preventive and corrective cleaning tasks

Choose **MT-1028 Cleaner & Degreaser** from Molytech Products Private Limited for powerful, residue-free cleaning that keeps your machinery running at peak performance.
