Water Based Cleaner & Degreaser – MT-1035

Molytech Products Private Limited presents **MT-1035 Water Based Cleaner & Degreaser**, a safe, economical, and heavy-duty cleaning solution designed for effective removal of oils, grease, dirt, and industrial contaminants. Its versatile water-based formulation allows flexible dilution, making it suitable for a wide range of cleaning applications while ensuring cost efficiency and operator safety.

Applications:

Ideal for cleaning machinery parts, floors, tools, automotive components, workshops, and industrial equipment. Suitable for general maintenance cleaning where effective degreasing and safety are required.

Features & Benefits:

- Safe and economical cleaning solution
- Heavy-duty degreasing power for industrial use
- Can be diluted with water in the ratio **1:5 to 1:20** depending on application
- Removes oil, grease, carbon, and dirt effectively
- Non-flammable, environmentally responsible formulation
- Easy to use, reduces downtime, and improves maintenance efficiency

Choose **MT-1035 Water Based Cleaner & Degreaser** from Molytech Products Private Limited for safe, versatile, and cost-effective cleaning across industrial and automotive applications.
