Belt Dressing Spray – MT-1077

Molytech Products Private Limited presents MT-1077 Belt Dressing Spray, a high-performance adhesive and colorless aerosol designed to eliminate belt squeaks and prevent slippage. It restores grip and flexibility to belts, ensuring smooth power transmission and extended belt life in a wide range of industrial and automotive applications.

Applications:

Specially developed for use on flat, round, and V-belts in industrial machinery, automotive systems, and agricultural equipment to prevent belt slippage and noise.

Features & Benefits:

- **Stops squeaks and slips** for smooth, quiet belt operation
- **Improves grip and power transmission** of belts under load
- **Adhesive, colorless formulation** leaves no stains or residue
- **Extends belt life** by reducing wear and slippage
- **Effective in a wide temperature range** from -50°C to 110°C
- **Convenient aerosol spray** allows precise, uniform application

Choose **MT-1077 Belt Dressing Spray** from **Molytech Products Private Limited** for reliable belt performance, reduced downtime, and extended service life of machinery and automotive systems.
