

Molytech Products Private Limited

Extra High Temperature Chain Oil – MT-CL220XHT

Molytech Products Private Limited presents **MT-CL220XHT**, a premium synthetic-based chain oil formulated with advanced additives to deliver superior lubrication and protection under extreme temperature conditions. Designed for high-performance industrial applications, this oil ensures low consumption, excellent thermal stability, and long-lasting chain life.

Applications:

- High-temperature conveyor and drive chains
- Textile, paint shop, and automotive industries
- Chains operating under heavy loads and continuous high heat

Features & Benefits:

- Extreme temperature resistance up to 280°C
- Low oil consumption, reducing operating costs
- High-performance lubrication for extended chain life
- Excellent oxidation and thermal stability
- Minimizes wear, residue, and carbon deposits

Choose **MT-CL220XHT Extra High Temperature Chain Oil** from **Molytech Products Private Limited** for outstanding chain protection, reduced maintenance, and reliable operation in high-heat industrial environments.
