Multipurpose Grease – MT-LiEP460

Molytech Products Private Limited presents **MT-LiEP460**, a premium mineral oil-based lithium soap grease engineered for heavy-duty and high-temperature applications. With exceptional load-bearing capability and thermal stability, this grease is ideally suited for demanding industrial environments, including crusher plants and other heavy machinery.

Applications:

Perfect for crusher plants, heavy-load bearings, gears, and other equipment operating under extreme pressure and temperature.

Features & Benefits:

- High-temperature resistance for continuous heavy-duty service
- Excellent load-carrying capacity for extreme pressure conditions
- Superior wear and corrosion protection
- Reliable lubrication in harsh environments
- Extends machinery life and reduces downtime

MT-LiEP460 – the **tough, long-lasting grease** for the most challenging lubrication needs.
