

Molytech Products Private Limited

High Speed Grease – MT-SYN HS

Molytech Products Private Limited presents **MT-SYN-HS**, a high-performance **synthetic oil-based, lithium-complex grease** engineered for **high-speed machinery** operating in challenging environments. This grease offers outstanding resistance to water, alkalis, and coolants while ensuring smooth operation and reduced wear.

Applications:

Ideal for high-speed bearings, spindles, CNC machines, electric motors, and equipment exposed to moisture, alkaline solutions, or coolant environments.

Features & Benefits:

- Excellent lubrication for high-speed applications
- Superior water, alkali, and coolant resistance
- Low friction to enhance efficiency and bearing life
- Maintains stability over a wide temperature range
- Protects equipment under heavy operational demands

Choose **MT-SYN HS** from **Molytech Products Private Limited** for **reliable, long-lasting lubrication** in precision and high-speed industrial applications.
