

## Molytech Products Private Limited

### Aimol Food Grade Gear Oil (150/220/320/460)

**Molytech Products Private Limited** presents the **Aimol Food Grade Oil range**, a premium series of lubricants designed for gears, bearings, and transmissions in food, beverage, and pharmaceutical industries. Developed with advanced base stock technology and specialized food-safe additives, these oils ensure **very high performance** while maintaining strict food safety standards. All raw materials are **non-toxic and food grade**, making the oils suitable for use in sensitive applications. The entire range is **InS and NSF H1 registered**, ensuring compliance for incidental food contact.

#### Applications:

- Gearboxes in food & beverage processing plants
- Conical and helical gears in production lines
- Bearings, chains, and screws in food & pharma equipment
- Joints and transmissions requiring ISO VG 150–460 viscosity range
- Pharmaceutical, packaging, and bottling machinery

#### Features & Benefits:

- **Food-Grade Certified:** InS & NSF H1 registered for incidental food contact
- **High Reliability:** Exceptional wear protection & oxidation stability
- **Non-toxic & Safe:** Developed exclusively from food-grade materials
- **Versatility:** Available in ISO VG 150, 220, 320 & 460 grades
- **Extended Life:** Reduces friction, wear, and costly downtime

Choose **Aimol Food Grade Gear Oils (ISO VG 150/220/320/460)** from **Molytech Products Private Limited** for safe, certified, and high-performance lubrication in food and pharmaceutical processing environments.
