Multipurpose Grease – MT-LiC2

Molytech Products Private Limited introduces **MT-LiC2**, a versatile **mineral oil-based lithium & calcium soap grease** designed for a wide range of industrial and automotive applications. This grease provides excellent water, steam, and temperature resistance, ensuring dependable performance under high load conditions.

Applications:

Suitable for bearings, bushings, couplings, and general industrial equipment operating in moist or high-load environments.

Features & Benefits:

- Excellent water and steam resistance
- High load-carrying capacity for demanding operations
- Good thermal stability across the service range
- Versatile use across multiple machinery types
- Prolongs equipment life by reducing wear and corrosion

Choose **MT-LiC2** from **Molytech Products Private Limited** for **reliable, all-purpose lubrication** across diverse applications..
